

CONEWAGO

MANUFACTURING, LLC

“Excellent to work with during every phase of the project. Team players who safely delivered a high-quality product. I look forward to working with Conewago Manufacturing again.”

DID YOU KNOW WE ALSO OFFER:

Precast

Our Precast clients benefit from our ability to provide an expedited and efficient construction schedule. In our 131,000 sq. ft. PCI certified manufacturing facility, we produce insulated sandwich panels, specialty cold-storage panels, and architectural precast panels; including custom finishes, colors, and unique material combinations with brick veneers. In our plant, we can produce over 110,750 sq. ft. of concrete precast panels per week.

Concrete Services

No task is too large or small for our Concrete Services Team. Conewago can produce customer mix designs, different colored aggregates, mixes, and even pattern and color combinations. Other capabilities include:

- Sawing • Cutting • Coring • Caulking
- Sealing • Grinding • Patching

Mobile Batch Plants

Our mobile batch plant service includes two fully equipped mobile batch plants and a full fleet of site only concrete trucks. These plants are fully assembled and each is maintained by a dedicated full-time crew. Our plants are capable of mixing concrete to rates as high as 190 cy/hr; allowing placement of concrete within minutes of batching. This decreased lead time gives you the ability to pour 70,000SF (equal to 1,500 CY) at one time.

Verti-Block As an Authorized Manufacturer & Supplier of Verti-Block Retaining Walls, we support commercial and residential clients with gravity walls up to 14 ft. high or higher with our inventory of ready-made blocks.

Facilities Group

Conewago would like to help keep your facility looking great and operating at its full capacity with our Facilities Group division. Services include: routine inspections, preventative maintenance, repairs & more.
